Funding Organisation: Austrian Research Funds

Contact and Commitment

Provisional funding commitment (excluding EC contribution)	EUR 400.000
Link to the national webpage of the call	www.fwf.ac.at
Funding Organisation Contact Point	Sabine Haubenwallner, Head of Gender Issues, Tel.: +43 - 1- 5056740-8603 sabine.haubenwallner@fwf.ac.at

Eligibility

Eligible Partners and/or Institutions	Any researcher working in Austria who possesses the research qualifications, available capacity, and the infrastructure necessary to carry out the project submitted. No particular academic title is needed, nor is Austrian citizenship required. However, stand-alone projects must be carried out in Austria or based at an Austrian research institution. Applications for stand-alone projects may only be submitted by individual natural persons. The applicant's qualifications to carry out the research work should be demonstrated by publications in internationally recognized journals (the number of which should correspond to the stage the applicant has reached in his/her career). The following criteria are decisive in the assessment of the applicant's research qualifications and determine whether a review procedure is initiated - for details see http://www.fwf.ac.at/fileadmin/files/Dokumente/Antragstellung/Einzelprojekte/p_application-guidelines.pdf Applications from institutes, institutions or companies are not permitted in 2017. Nevertheless the system of applications will be changed in the course of 2018 and research institutions will become eligible for funding.
Eligible topics	Whether all call topics will be supported by the FWF has to be decided by the FWF executive board in December 2017
Funding Organisation Specific Rules	In general the FWF only funds basic science

Budget

Maximum budget to be requested per partner	The FWF has set out a sum of max. €400.000; but this sum also has to be decided by the FWF executive board in December 2017
Eligible personnel costs	<p>The application should include all persons, in addition to the staff already available, who will be required for work exclusively on the proposed project.</p> <p>The available legal categories of employment are contracts of employment for full-time or part-time employees (DV) and reimbursement for work on an hourly basis (GB). In addition, a part-time contract of employment (50% contract of employment for student assistants) may be requested for researchers who have not yet completed a master's or diploma (Diplom) degree programme in the relevant subject area.</p> <p>The current FWF salary scale ("Personnel Costs and Salary Scale" or, for graduates of medicine in Austria, "Personnel Costs / Salaries for Graduates of Medical Studies in Austria" ;) indicates the salaries that may be requested. The FWF grants an annual salary adjustment to compensate for inflation; this is applied automatically to all contracts of employment in stand-alone projects that are valid when the adjustment takes effect.</p> <p>The reasoning for the personnel requested should contain the following information:</p> <ul style="list-style-type: none"> - A description of the nature of each employee's work; - Each employee's extent of employment (part-time contracts permitted). Please note that the extent of employment for PhD student positions must not exceed 75% (i.e. 30 hours per week).
Subcontracting	<p>Other costs</p> <ul style="list-style-type: none"> - Independent contracts for work and services (costs for work of clearly defined scope and content commissioned to individuals, provided that it is scientifically justifiable and economical). - Costs that cannot be included under personnel, equipment, materials or travel costs, for example: <ul style="list-style-type: none"> - Coverage of costs for the use of research facilities, e.g. costs incurred due to the project-specific use of available equipment (project-specific "equipment time") or large research facilities; in any case, offers from potential suppliers must be submitted. <p>Where the costs exceed €10,000 (not including VAT) over the entire term of the project, each offer must be accompanied by the corresponding calculation basis for costs from the research institution involved in the project. This calculation must include information on the nature and scope of the services for which project-specific costs are incurred (according to internal charging procedures, e.g. based on usage days or hours, or based on the number and type of measurements/analyses performed, etc.) as well as a confirmation indicating that the offer does not include any infrastructure-related costs such as equipment depreciation, supplementary charges for overhead, costs of research premises, etc.;</p>

	<ul style="list-style-type: none"> - Costs for laboratory animals required by and used in the project; - Costs for project-specific work carried out outside the applicant's research institution (e.g. for analysis work performed elsewhere, for interviews, for sample collection, for preparation of thin slices etc.). Offers from potential suppliers are to be submitted to the FWF; - Costs for the disposal of hazardous waste; - Costs for fees paid to test persons; - When planning project budgets, please observe the FWF's Open Access Policy, including Section VI, "Open Research Data". This means that it is necessary to allocate the necessary funds over the project's duration to ensure the preparation, archiving, open access and later use of research data in repositories (depending on the research field).

Link to the national webpage of the call	www.nserc.ca
Funding Organisation Contact Point	Catherine Podeszinski, Deputy Director, Scholarships and Fellowships Division Telephone: 613-996-1125 catherine.podeszinski@nserc-crsng.gc.ca

Eligibility

Eligible Partners and/or Institutions	To be eligible for funding from NSERC, the team must include one or more researchers in the natural sciences and engineering who are eligible to hold NSERC funds. Refer to NSERC's Eligibility Criteria for Faculty for more details (http://www.nserc-crsng.gc.ca/NSERC-CRSNG/Eligibility-Admissibilite/faculty-corpsprof_eng.asp). In addition, the PI must apply from a Canadian Eligible University (http://www.nserc-crsng.gc.ca/NSERC-CRSNG/Eligibility-Admissibilite/ListEligibleInstitutions-ListEtablissementsAdmissible_eng.asp#Universities).
Eligible topics	NSERC will support applications within the SDG9 (Infrastructure, Industrialization and Innovation) and SDG13 (Climate Action) call topics only. Given the nature of the GENDER-NET Plus Call, it is expected that proposals will include collaboration and integration across several disciplines. Proposals requesting funds from NSERC can include aspects of social sciences and humanities, provided that the main focus remains within the natural sciences and engineering. Please see NSERC's Subject Matter Eligibility guidelines (http://www.science.gc.ca/eic/site/063.nsf/eng/h_FEE7261A.html?OpenDocument) for more information. NOTE: It is the applicant's responsibility to ensure that the proposed project complies with NSERC's Subject Matter Eligibility guidelines. NSERC reserves the right to declare the non-NSE portion of the project ineligible, which may compromise the project as a whole.

Funding Organisation Specific Rules	No additional specific rules defined
--	--------------------------------------

Budget

Maximum budget to be requested per partner	The maximum possible requested amount is \$100,000 CAD per year per project for a maximum of 3 years. For NSERC-eligible researchers, projects will be funded based on the funding request submitted by the applicant, via an itemized budget and one-page justification, which must be submitted to NSERC at the time of application. If more than one applicant from Canada is participating in the same proposal, they must work together and designate one single project leader. He or she will be accountable to NSERC for the management of funds and the research portion of the GENDER-NET Plus project.
Eligible personnel costs	Expenses for this initiative must comply with the Tri-Agency Financial Administration Guide (http://www.nserc-crsng.gc.ca/Professors-Professeurs/FinancialAdminGuide-GuideAdminFinancier/index_eng.asp)
Subcontracting	N/A

The Spanish legal entities granted are obliged by the regulations established in this APCIN call (or equivalent) and by the funding limits specified below.

The Call will be managed by the [Subdivisión de Programas Científico-Técnicos Transversales, Fortalecimiento y Excelencia](#).

The projects granted by the Ministry of Economy, Industry and Competitiveness must be aligned with the main objectives described in the [Programa Estatal](#).

Min. project duration: 24 month

Max. project duration: 36 month

Maximum funding per project:

The following funding limits are considered eligibility criteria. Proposals not respecting these limits can be declared ineligible.

The maximum amount of funding is 100,000 € per proposal and legal entity (additional 30,000 € if the Spanish group leader is the coordinator of the international consortium).

Only one Spanish legal entity per proposal is allowed to apply to this transnational call to be funded by the AEI-MINECO.

The final level of funding will take into account the transnational evaluation of the collaborative proposal, the scientific quality of the Spanish group, the added value of the international collaboration, the participation of the industrial sector and the financial resources available.

Institutional eligibility criteria:

The **eligible entities** for the State Research Agency funding are:

Non-profit research organizations according to the APCIN call or equivalent (*Acciones de Programación Conjunta Internacional o equivalente*).

Spanish investigators are encouraged to include the Spanish industrial sector in the transnational consortia.

Spanish Principal Investigators must be eligible according to the APCIN call or equivalent and must have experience as investigators in projects funded by the *Plan Nacional I+D+i 2008-2011*, the *Plan Estatal I+D+i 2013-2016*, ERC Grants, European Framework Programmes or other relevant international programmes.

- Principal Investigators are not allowed to apply for funding in more than one proposal of this ERA-NET Cofund call.

- Principal Investigators are not allowed to apply for funding in more than one proposal in two consecutive APCIN calls (or equivalent). This must be taken into account when participating in different ERA-Nets or other international initiatives.

- Principal Investigators should remain unchanged between the proposal and the National APCIN call or equivalent.

AEI-MINECO will avoid double funding (overlapping with other EU or National funding), and will not grant projects or parts of projects already funded.

Eligible costs:

- Personnel costs for temporary employment contracts. Scholarships are not eligible.

- Current costs, small scientific equipment, disposable materials, travelling expenses and other costs that can be justified as necessary to carry out the proposed activities.

- Indirect costs (overheads), proofs of concept, proofs of principle, are not eligible for funding in the APCIN call.

Eligible topics:
